1. Policies Governing the Acquisition of Properties

In determining which, if any, properties shall be acquired by Berrien County or by the Land Bank Authority, the LBA shall give consideration to the following factors:

2. Proposals and requests by governmental entities that identify specific properties for ultimate use and redevelopment for which the utilization of the Land Bank tools is necessary to complete the development.
3. Residential properties that are available for immediate occupancy without need for substantial rehabilitation.
4. Improved properties that are the subject of an existing order for demolition of the improvements and properties that meet the criteria for demolition of improvements.
5. Vacant properties for best use would be to place the property into the Side Lot Disposition Program.
6. Properties that would be in support of local community plans, and have a determined timeline in place and also meet the mission of the Berrien County Land Bank.

8. Properties that will generate operating resources for the functions of the Berrien County Land Bank Authority.
9. Properties that will result in a planned development that benefits the community, and are supported by the local government.

The LBA may request the Treasurer to combine properties from one or more of the foregoing categories in structuring the terms and conditions of the statutorily required auctions of the tax foreclosure properties, and may acquire any such properties prior to auctions, at such auctions, or subsequent to auctions as authorized by law. In determining the nature and extent of the properties to be acquired the LBA shall also give consideration to underlying values of the subject properties, the financial resources available for acquisitions, the operational capacity of the LBA, and the projected length of time for transfer of such properties to the ultimate transferees.

2. Priorities Concerning the Disposition of Properties

The disposition of properties shall be based upon a combination of three different factors. The first factor involves the intended or planned use of the property. The second factor considers the nature and identity of the transferee of the property. The third factor addresses the impact of the property transfer on the short and long term neighborhood and community development plans. Within each factor is a ranking of priorities. The disposition of any given parcel will be based upon an assessment of the most efficient and effective way to maximize the aggregate policies and priorities. The Board and Staff of the LBA shall at all times retain flexibility in evaluating the appropriate balancing of the priorities for the use of property, priorities as to the nature of the transferee of properties, and priorities concerning neighborhood and community development.
